## Larger Enrollment at St. Peters School

One hundred and seventy-five children enrolled in the St. Peter's Parochial school yesterday morning which is an increase of about 15 over last year. Sister Genevieve said this morning that there would doubtless be more to enroll during the week. The building is in good condition and the children seemed glad to take up their work again. They were very sorry not to have Father Boulton present as he was always so interested in the opening school exercises. Father Boulton is taking treatment at St. Agnes hospital, Baltimore, and it is not known just when he will be able to return.

The usual eight grades will hold session at the Catholic school and pupils here are usually ready to enter second year high school when they graduate except in Algebra and Latin.

Sister Genevieve called attention particularly to the grotto in the upper hall which was put in place last fall. In the morning sunlight it was especially beautiful. The children, she said, were very proud of it. The grotto represents a peasant child and the angel who appeared to her. It is an exact duplicate of the one in Lourdes, France, and cost over \$300.
